

CAPITA SYMONDS

1st June 2009

To whom it may concern

Dear Sir

I am writing to confirm having assessed and specified Bronz-Glow protective treatment.

I have visited the Bronz-Glow factory to assess the quality of the product and the technical capabilities of the company and can confirm that a favourable impression was made on both counts.

Subsequent to the factory visit, Capita Symonds recommended Bronz-Glow for the coating of all external condensers for the new Hilton Hotel at John Lennon Airport, Liverpool. The work was completed in 2008.

I would be happy to recommend Bronz-Glow for future projects.

Please feel free to contact me for further information either at the address below or on 07717 003 806..

Yours faithfully

Philip Raymond

M & E Project Manager
